賢者の弟子を名乗る賢者
Luminaria
I'll introduce you She is..
にゃお
旧知な感じのスーパー美女、登場!!

You're Dunbalf aren't you!! Soooooo easy to figure out with this character design
なーでなでなでー
賢者の弟子を名乗る賢者
She professed herself a pupil of the wise man.

麗しき再会にならないないー一人!?
わぷぷ
Stop it already Stupinaria!!
Even if you change your appearance, good friends like us can still recognize each other!!!!
うんうんー
ははは
かわりないなー
Hey....! You !! where are you touching !"/&¤!!!!
やめ…やめんにゃあああ

あ

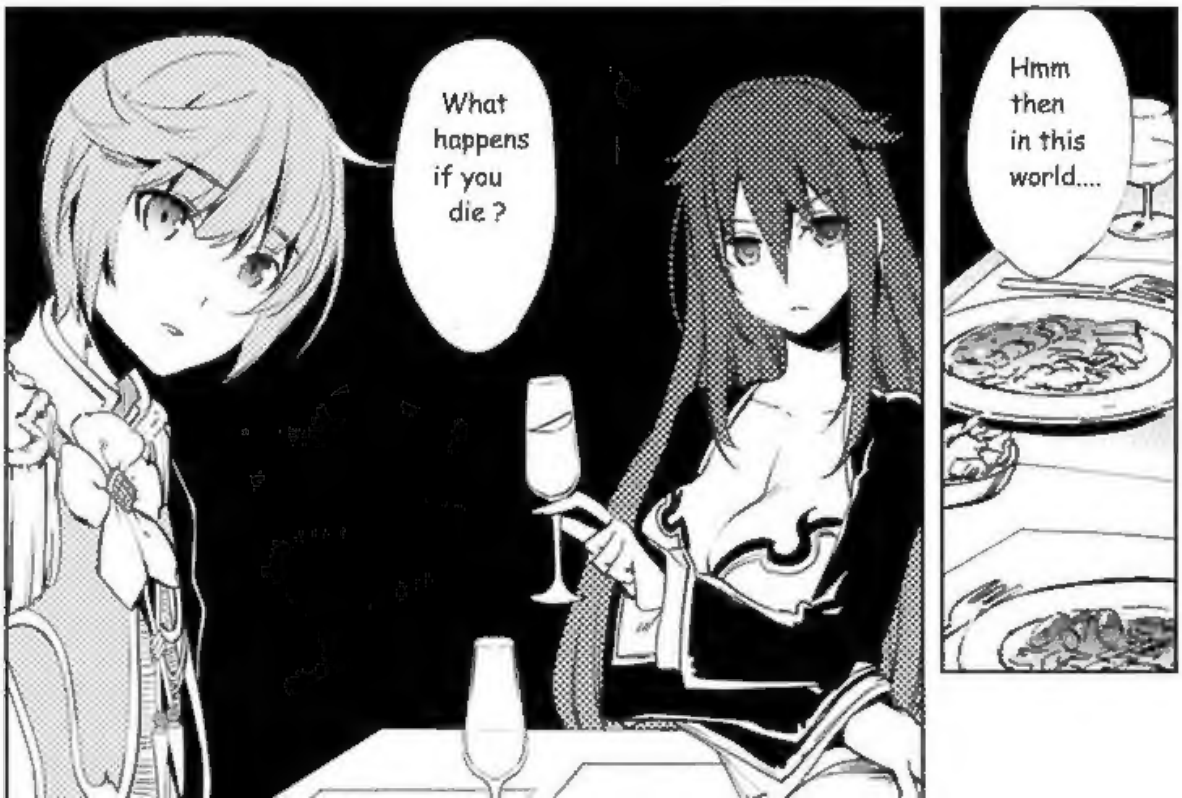
Well from my point of view this world is the best!
Look at this perfect body of mine ♡
For people like you who are commited to playing the opposite gender online, it might be good news

But well it's a good thing isn't it
That the cosmetic box you used was not the Joke killer one
あっ
このからあげ
ちょーうめえ
むぐむぐ

That aside you guys have not aged one bit for someone who has been living for 30 years in this world
Right about that
It seems like we, the former players are different from npcs
The difference between aging and not aging is clearly visible but system-wise
The command Examine cannot be used on us

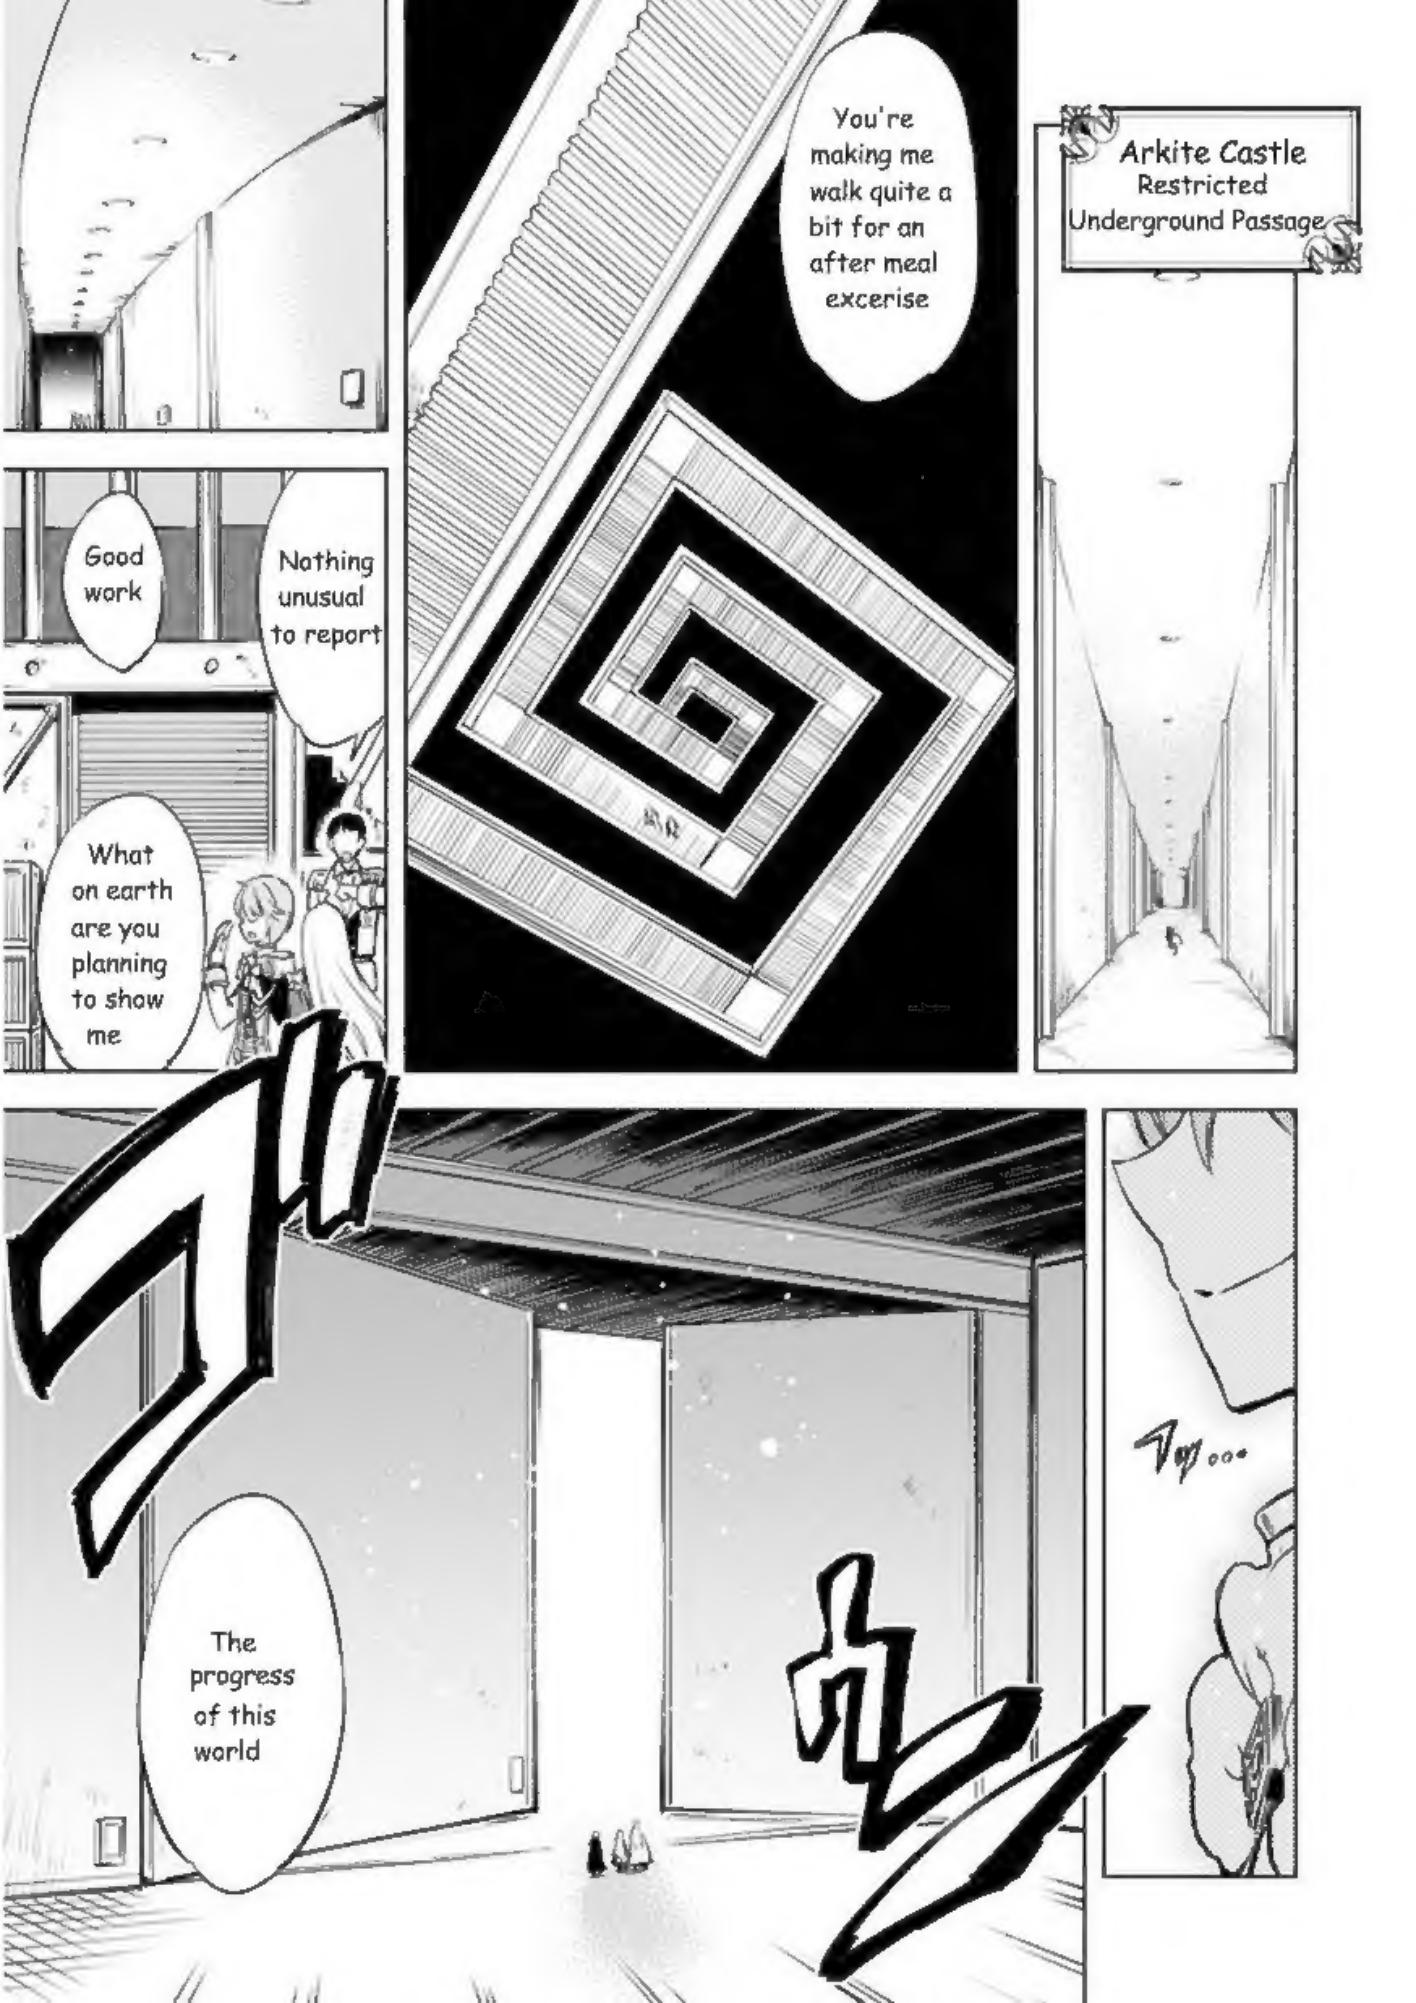
Tl: Mira is how japanese spell "mirror", she's implying that his gender is reversed/opposite, just like a reflection

That's why with those looks and the inability to use the examine command
I was convinced that Mira is Mira
Stop using my name like that

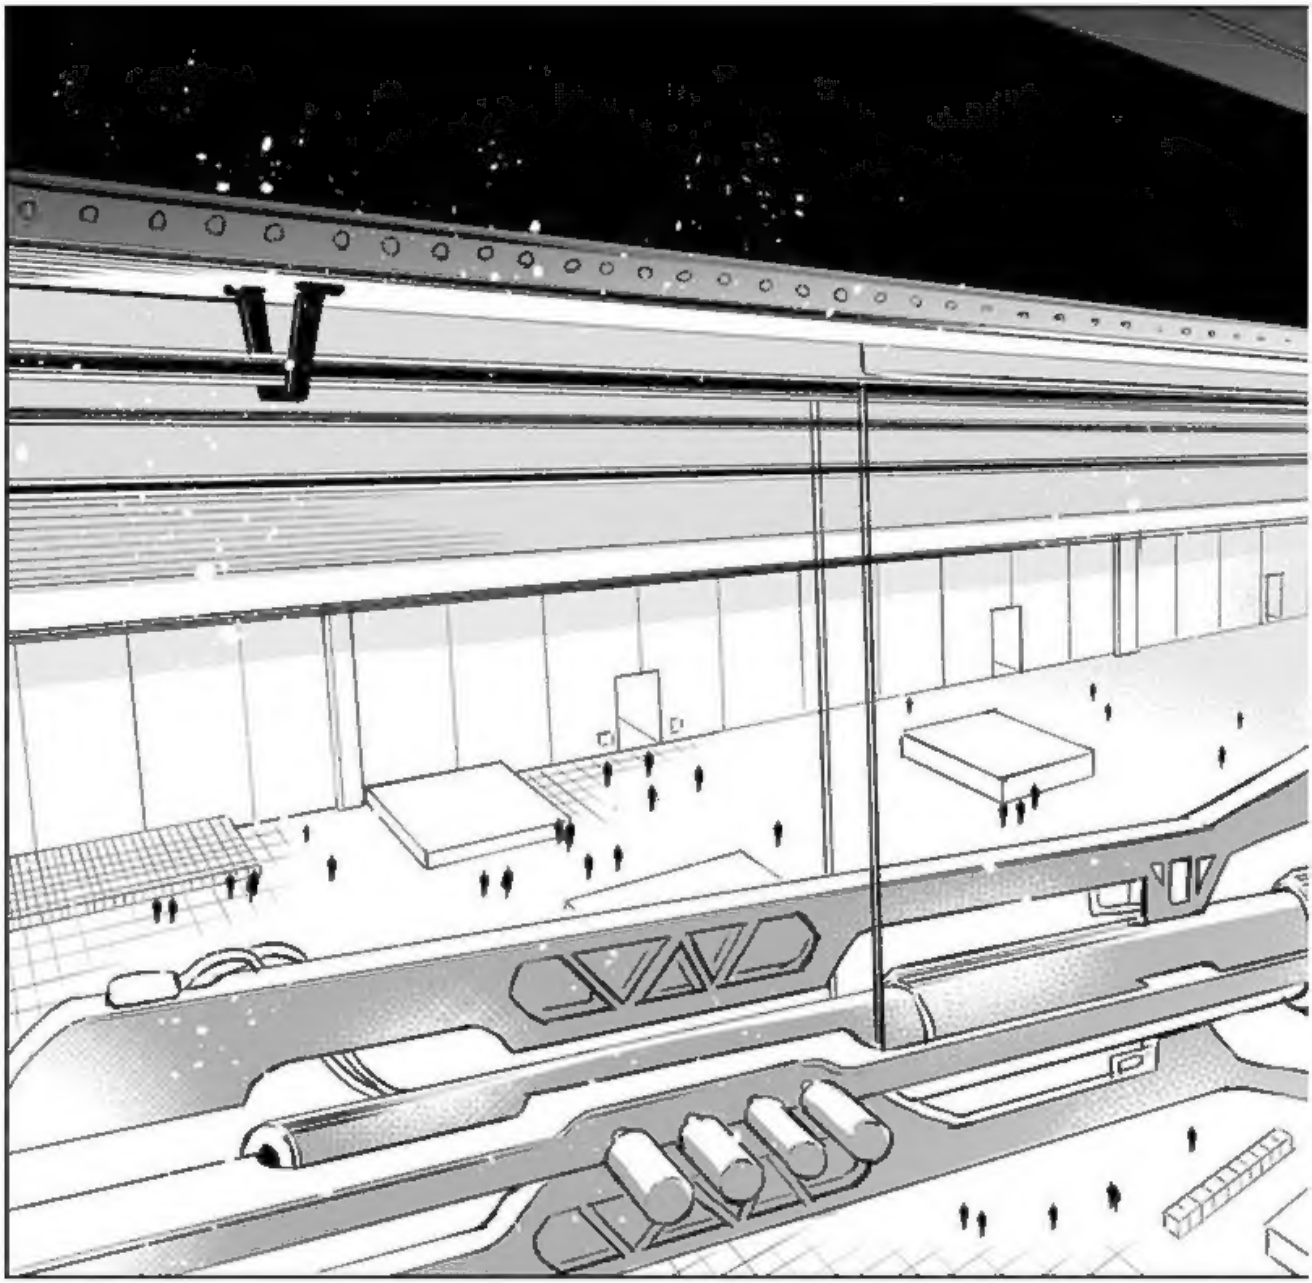


m..
I've yet to hear of a player dying...
But in my opinion it will probably..
Be the end if you die
Death is Death is what I believe
People who suddenly one day became permanently offline
Exist
Because there are some like you who suddenly appear in this world
But....
I always check my friendlist every night

Well our powers have not changed since this was a game, so if needed we can just run away with all our might
Be it against a monster king demon king or even a dragon, we can survive
But it doesn't hurt to be on the safe side
But well that's only my theory
Maybe they found a way to logout or they died in this world
That's true
For the sake of our continued survival from now on why don't we start with enjoying the meal infront of us
Well it was not the best subject to talk about during a meal but
Also there is something I'd like you to see after this



You're making me walk quite a bit for an after meal excerise
Arkite Castle
Restricted
Underground Passage
Good work
Nothing unusual to report
What on earth are you planning to show me
The progress of this world



あ、あれがうわさのミラさま…!!
マジかっ!!
うおおっ!!
This is the advancement in production that we have achieved during your 30 years of absence "Magical Engineering"
oh...
Oh!
Oh!
Oh!
新スキルな!?
なかなかやりおるのっ!?
Here comes the delayed and slow reaction
Some of his weird habits from when he was an old man are still the same

And so to make the "strongest" even stronger
これはねー アコードキャノンっていって 今は出ホテスト中なんだよねー
これはなんじゃ？
But to think that it would actually be implemented
You used to say that if the military was added to this game, it would be the strongest
にこ…
えっ？
えっ？
にこっ
What's going on !!!!!!!!!
ドドドドド
W... What??
はっ

Oh a spirit stone so this must be the spirit stone research area
Indeed
Spirit stone research area
自分で歩くわい!!
下ろさぬか!!
ふふ 最後までお疲れでしょう
S So small
We're trying our best ..
BUt
Oh king Solomon are you here to perform an inspection?
That too, can I borrow this spirit stone refinement bench
Ah that one will be done in 30 minutes

That's dangerous
Let me try
Even bigger you say?!
Give me a different gem and I'll refine it into a spirit stone
She is Mira Dunbalf s disciple
Well the one used was already partly refined after all I th nk I can refine an even bigger one
This, is without a doubt a refined stone
But this is the first time I have seen one this big

I told you that I would make the strongest even stronger
Ohhhh Disciple of the nventor of spirit stone refinement Master Dunbalf
The fact that she has nhereted all of his crafts means that the technology of soul stone refining that was lost together with Dunbalf Will make a comeback
But with the return of Dunbalf's technology, the weapons that have been running in energy saving mode thus far
Will become even more powerful !!!!!
We plan to use the refined soul stones to power the magical engineering weaponry currently under development
But as you have po nted out the crystals we have managed to produce so far are quite small
We tried other energy sources but as expected sp rits stones were the most efficient

Excuse me.
As you probably already know The wisemen who are this country's main Military force are absent
And so we hope that these crystals will compensate for that and serve as a weapon and shield
Why don't you think of it as helping our country grow
……
Since miss Mira is master Dunbalf's disciple I have a few questions regarding the technology
And talk to them

オオオオ!
Yes!!
It's not someth ng you can learn easily are you prepared for that ?
Did they decrease that much?
Sadly that is the truth
C Can't be helped then..
Even Cleos came
Oh even the substitue Elder of the tower of summoning Cleos has come
To discuss the problem of the decreasing number of summoners i magine
ざわざわ
We need 30 years' worth of adjustment!

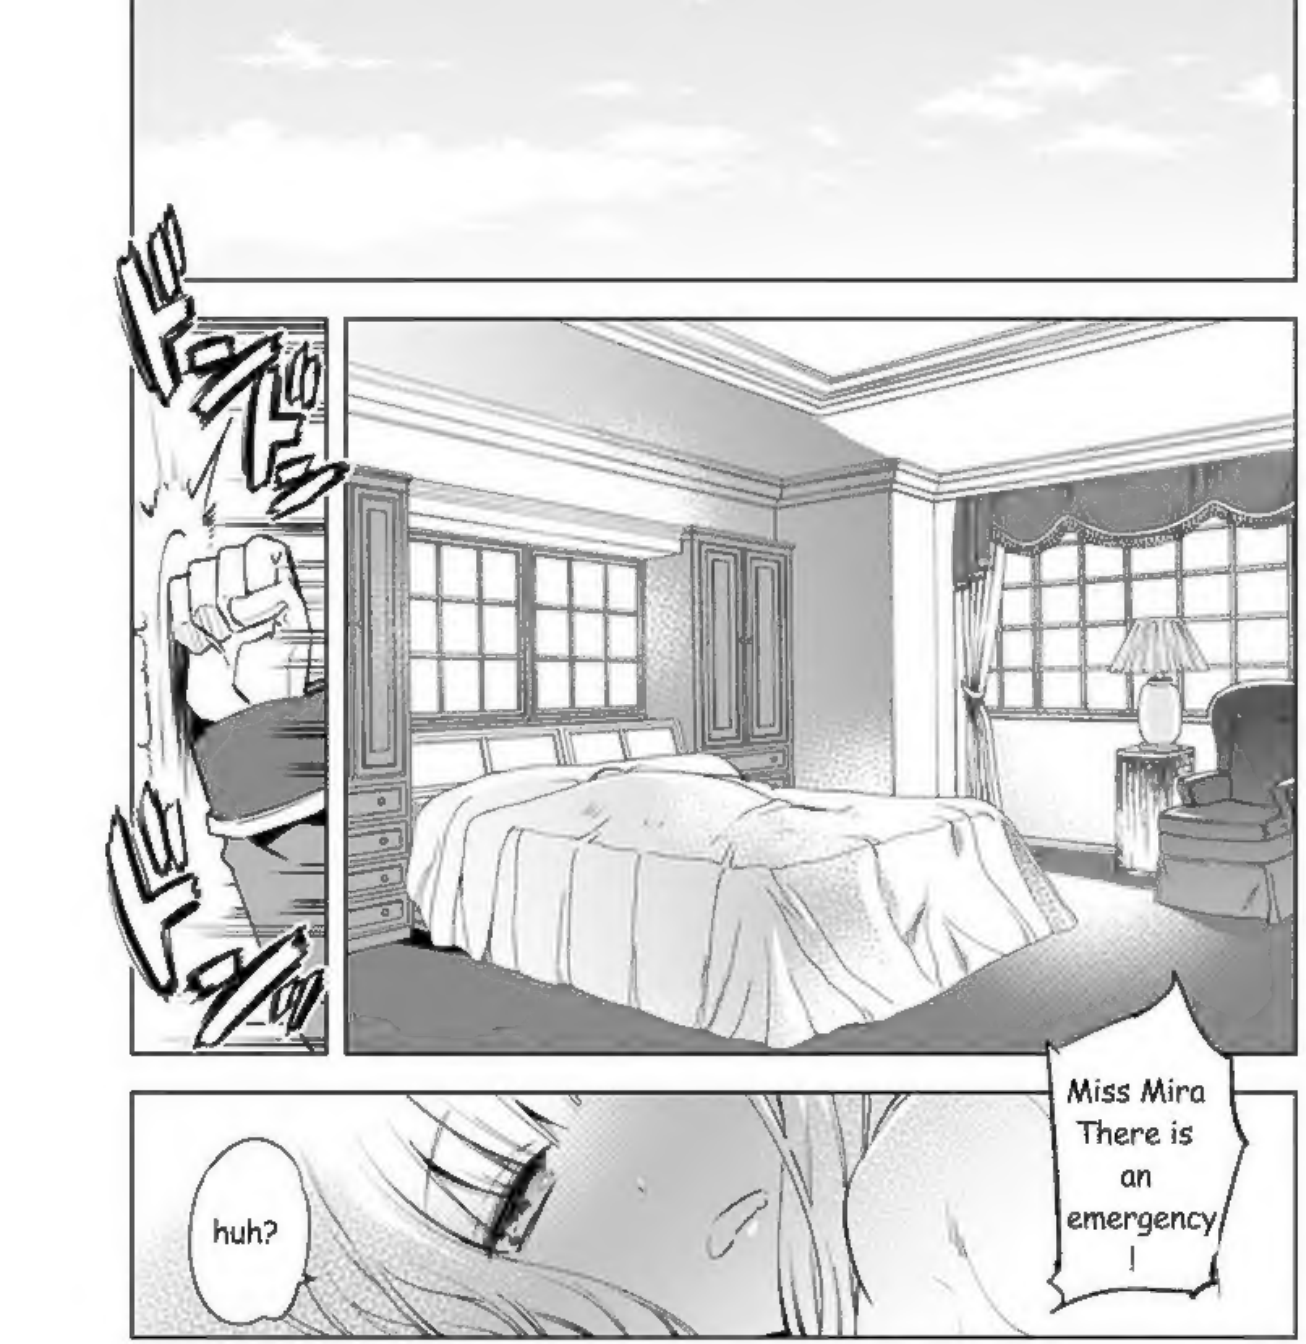
HUH?!!!

I
I'm Cute...

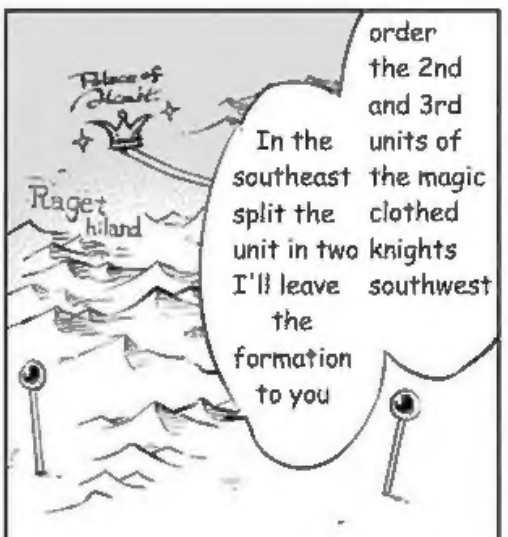
TI: The dark side ? xD

Welcome to this side
How long have you been here
Since I'm cute ♡ "
Oh
It's fine. It's fine. that pair of underwear over there will definitely suit you Go ahead, try them on Mira ♡
Don't be stupid! Something like that Something like that!
わたしが
用意しました
朝のミラ様のお着替
Don't resist! You probably wore briefs as a child, think of it as the same thing
Wha!?
But compared to breifs this is a lot tighter!!!
朝のミラ様の部屋
Which means this type is for the inexperienced I guess
By the way in the underwear drawer, there were some see-through underwear
Having to wear Something this girly I I
Stupinaria!!!!!!!!!!!!
Come on I'll help you wear it
にゃにゃにゃ



ドドドドド
huh?
Miss Mira There is an emergency !

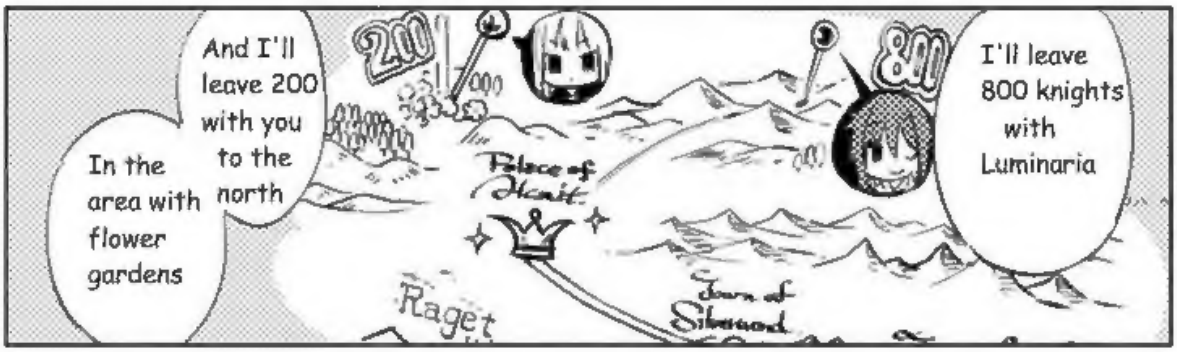
What's the commotion about ?
Good morning and we have a major incident



Raget hiland
In the southeast split the unit in two I'll leave the formation to you
order the 2nd and 3rd units of the magic clothed knights southwest

ざわざわ

To put it simply there has been a simultaneous outbreak of around 300 demons
From what we know it's likely to be lesser demons
They seem to be holding dark crystals thought to be demon crystals
Lesser demons... all events where they are invovled usually leave a bad aftertaste
On top of the fact that no such outbreak occured the last 30 years it is lesser demons afterall
We need to be on high alert
Ah..



I'll leave 800 knights with Luminaria
And I'll leave 200 with you to the north
In the area with flower gardens
200
800
Palace of Heart
Raget
Sea of Silmood

I wish i could leave more knights with you but...
Lesser demons have actually appeared in those flower gardens before
Even so Several factors such as us being shorthanded and it being this area...
I see
Doesn't seem like an easy job

What means of transport do we have?
The outbreak started early morning
It's been several hours since so I'd like you to hurry
Good morning
Ohh! The coachman from the other day!

I was escorted to my destination by Garret
The other day using the fruit of Arkite's magical engineering Section's labour "The armored jeep"
男の夢の結実!?
魔導工学の本気――!

Since communication equipment is also installed be sure to gather intel along the way
ゴロロロロ…!!
Even though it was a rushed job, the crystal you provided us with yesterday helped the armored jeep powerup. Using that I would like you to head over to your destination

To be continued
